DECATUR. ILLINOIS, WEDNESDAY. FEBRUARY 14, 1894

It is easy to SCALE PRICES right and left when you have a cheap lot of shop-worn clothing on hand. It is different when your stock is new and up to the latest style in make and fit. But we do business ON A LARGE SCALE AND UAN DROP PRICES TO A LOW SCALE.

We want your money and we know you will want our clothing when you see the prices.

On all of our Double-Breasted Winter Suits, Heavy Overcoats and Ulsters a discount of 33% Per Cent will be given, which reduces an \$18 Ulster to \$12. All other Winter weights in Men's and Boys' Suits and

Overcoats will be sold 10 per cent, cheaper than elsewhere. Our prices have always been 10 per cent cheaper than other houses, and we will make a larger discount than any competitor. (Where other houses give a discount of 25 per cent on a \$20 suit, which reduces it to \$15, our reduction brings the same grade of suit to \$13.50), and all other suits and Overcoats at the same ratio.

All of our \$7, \$6.50, \$6 and \$5 Pants are reduced to \$3.75. We guarantee our prices are equal to 33% per cent. discount made by our competitors on the same grade of goods. This sale includes Winter Underwear, Caps, Gloves and Mittens. We are going to make the month of February a big month if the people need the goods.

All goods sold at these prices for Cash only. Sale to continue for 30 days only

NOW IS THE TIME TO BUY AN OVERCOAT.

COME AND SEE.

129--135 North Water Street

What seems to the wife the correct thing to do, causes the husband lots of trouble. The whole neighborhood becomes excited and joins in the search. The baby is sent to the neighbors; the house is locked; the curtains drawn; everything is silent as the tomb. The dinner hour brings no tidings of the missing ones. Even the servant girl is gone. The husband returns at noon, as is his usual custom. He finds the home cold, silent, dark. No preparation for the noonday meal; no smiling wife to greet him. What is the result? He arouses what few people there are at home in the neighborhood. The search is started. Some four hundred cases of this kind have been reported, and after many a weary search and anxious enquiry just 398 were found in some one of the 18 departments of the O. M. An-

In some cases the people were found on the second floor buying Anstead's all-wool carpets at 47½c-regular price 80c and 90c. In one instance two husbands met and were surprised to find both wives. Each had bought over 2 doz. \$1.00 nightgowns at half off, paying just 50c each for them. The greatest number of missing ladies found at any one time was in Anstead's Dress Goods Department, where there are a half dozen clerks cutting off those fine Black Serges and Henriettas at 621c and 75c, 48 inches wide, at just half the regular price, which is \$1.25 and \$1.50. Some people were buying Slotin dress lining cambrics at 3c per yard instead of paying the regular price, 6c. The 100 pieces of American Shirting Prints at 3c per yard are good. The Hosiery, Corset and Underwear departments were crowded. The Thread department, which is now the cashier's desk, and as the cashier assists in handing 3 spools of Clark's and Coats' cotton out for 10c when the crowd is large, and at the same time changing ten-dollar bills, it keeps her vesy busy. Well, facts are stubborn things, but it is a conceded fact that the half-off sale now going on at O. M. Anstead's Dry Goods, Carpet and Cloak House, in selling all goods so cheap, it is good judgment to step in and buy all you may need for months to come; for certain it is neither Anstead nor any other merchant can afford to sell at half off the retail price very long.

The Postoffice.

continued by agreement.

Postmaster Hubbard was at the postoffice again to-day. He is not at all well, but he feels that he ought to be on duty, claiming that no matter where he might be he would be sick anyhow, and he might as wall be at the office as at home.

The mails continue to arrive off time from the east and wes.. The eastern mail, which is the heaviest of the day, has been several hours late for two days, getting in too late for the early morning delivery, and consequently business men have had to wait for their letters until the noon delivery. This makes extra work on the postoffice force, but they will have to grin and bear it until the element: get through interfering with the progress of the trains.

The business of the office during the past six months has steadily increased. the average increase being \$850 a month. This increase, which is largely from the sale of stamps, postal cards and envelopes, is due principally to the fact that business men have taken traveling men off the road to reduce expenses, and are now doing their business through the

Death of Bamuel M. O Davis. Samuel M. C. Davis, who has been ill for several weeks with an attack of the grip, died at 8 'o'clock this (Wednesday) ending in Missouri. He was a consin of Supervisor S. C. Davis of Long Creek, and H. W. Davis of Decatur. Deceased leaves a valuable estate, including 115 scree. He was a member of the Christian church at Antioch.

The funeral will be held Thursday at l p. m. from the church as Long Creek. Possibly Rev. A. P. Cobb, of Spring. field, will conduct the service.

A Beception.

An informal but very enjoyable reception was given last evening in Westminster chapel by five teachers of the classes of the eldest boys and girls of the Sunday school. Recitations were given by Gertie Hott and Fred Wismer. Misses Edith Lytle and Florence Hatch sang dust, with organ accompaniment by Miss Jessie Montgomery. Authors and other games were played, and a quartet of High School boys regaled the audience with occasional outbursts of a Dahomey tune. Ice creem and cake were served the guests, and a pretty valentine card given each as a souvenir.

Surrendered His Pension.

It has leaked out that Judge Gresham surrendered his pension of \$30 a month which he has been drawing for about thirty years, just after he accepted his present position in the cabinet. He refuses to give any rescons for this, but it is quite certain it was not prompted by patrictic motives, as he has made no effort to make restitution to the government for the amount he received before he surrendered his certificate. Gen. John Charles Black up to this time has not surrendered his \$100 a month.

Gone to Bidney.

The members of the Goodman's Band, the Augmented Orchestra, Arion Quartette and Miss Ada Haines left to-day for Sidney, Iil., to maint in the dedication of the new Odd Fellows' Hall in that city. A concert will be given at the opera house and the exercises will be (ollowed by a hanquet.

BEFORE THE OHIO REPUBLICAN CLUB.

He Makes a Ringing Speech Comparing the Present Condition of the Country with That Before the Last Presidential Election.

COLUMBUS, O., Feb. 14.-Gov. McKinley was nominated over and over again in the convention of Republican clubs of Ohio here yesterday for president of the United States, and when he appeared in response to an invitation and addressed the club briefly, the dele-gates wildly cheered him. Last evening at the Lincoln banquet, given under the auspices of the league clubs, responding to the toast, "Our Country." He spoke as follows:

The present condition of the country is meither cheerful nor attractive. The pause in sour prosperity is apparent, and has given occasion as well as opportunity for reflection. The past year has been one of compulsory.

The elections of 1892 did not mean free trade, The elections of left did not mean free trade, may more than they meant the free and unlimited coinage of silver, if the party in yower at Washington would reject the free trade doctrine as they have already the free estange doctrine, they might emphasize their want of good faith to party pledges and party profession and add another to their many inconstituencies.

that elections are serious public transactions,
and that their effect does not end on the day of

But west class could you expect? They are pictored to reduce the tariff and must do it, even if it interrupts the prosperity of the country and lavolves an increase in the public debt. That the receipts of the government are falling short of the needs of the government, does not stop them in their career of tariff reform.

Again while they are reducing the revenues

Again while they are reducing the revenues Again while they are reducing the revenues of the government, they are reducing the incomes of the people and the government, and the people are getting poorer at the same time and from the same cause. Each variety of properly has muck in value since the party of fartif reform sontered upon its possession of the government. Every manufacturing plant, every stock and bond from those of the government to a municipal bond has felt the depreciating influence of the threatened free trade.

The people want a change and they want it bad. They want it sooner than they ever dreamed they would want it, they are tired of their contract. They are tired of this tariff tinkering bond issuing, debt-increasing, iff tinkering bond issuing, debt-increasing, treasury-depleting, business paralyzing, wage-reducing queen restoring administration. GREAT LAND FRAUDS.

AUSTIN, Tex. Feb. 14.-One of the

The State of Texas and Innecent Purchasers Robbed of Thousands of Dollars.

higgest land frauds ever practiced in Texas by land agents has just been developed The state has lost thousands of dollars by it, and many innocent purchasers of public lands have been defranded out of their rightful dues. The occasion of such a good opportuntty being offered these sharks to get in their work lies in the fact that during the years from 1879 to 1883, in order to encourage immigration, the state offered her pub-He domain to purchasers at fifty cents an acre Thousands availed themselves of the opportunity and swarmed into the state Realizing that this law would som be repealed, great haste was made by all to have their tracts surveyed and the fieldmotes filed with the general land office for approval in the genaril insec that ensed many misfresh fruit exhibits. lakes were made Quite frequently the series would lay right over a tract on which a patent had already been have arrived in town and have been then again the field notes taken care of. Two men were drowned, would not make out the 640 acres paid for by the purchaser in either case

chaser's money. The legislature some years ago made an appropriation to liquidate this refunding debt due these purchasers. The land sharks of n and the state soon got on to the deal. They immediately opened negotiations with the purchas these lands saying if they would agree to give half the rebate for the collection of the whole that they (the land sharks) would sue the and recover the money,

in reality the money was when then in the state treasury awaiting the proper owners to claim it. These sharks caught a number of innocent purchasers on this scheme and made piles of money out of it, but not satisfied with this, they went to work on the records, hunted the names of the men to whom this money was due, and then forged certificates authorizing them to collect for the owner.

This scheme was brought to a a sudden hait last week by the state treasury receiving a letter from a gentleman in the east, who had purchased some of these lands, asking as to whether any appropriation had ever been made to refund the money due him. In looking in the books it was ascertained that the amount due him -something over \$8,000-had been paid to one of the land sharks here in own over eleven months ago on certificates authorizing him to collect it.

This exposure has developed a number of other cases of like import, and it is very evident that the innocent purchasers of these lands have been systematically fleeced. The next legislature will take the matter up, and there is a fair chance of two-thirds of these sharks going to the penitentiary for embezzlement.

Mr Wolcott made an argument against the bill as a gross abuse of ladslative power and as an unauthorized interference with the affairs of a railroad company (the Rock Island), which did not owe its charter to rongress, but to the state of Kansas The whole matter, he argued, should be left to the territorial legis

A similar view of the question was taken by left. He favored the bill, and said that its effect mould be to remove the pressure which how prevails upon the gold reserve and place a portion of it upon after, where it properly be longed. This would better aid the government in maintaining the parity between the two metals, notwithstanding the wide variance

two metals, notwithstanding the wide variance in their value as commercial commodities.

Mr Bell spoke in favor of the bill. He favored the coinage of the seigniorage and all bullon in the treasury, but he regarded the pending measure as deceptive misleading and destructive in its real purpose, and the result would be to withdraw treasury notes and subyould be to withdraw treasury notes and sut would de to withdraw treasury notes and substitute for them silver certificates. It would not only destroy the parity between gold and silver but would disturb the parity between the different kinds of paper money now in circulation.

Mr Bankhead spoke in favor of the bill, and

Mr Bankhead spoke in favor of the bill, and was followed in turn by several spankers on both sides of the question, after which Mr. Bland offered an amendment to section 2 of the pending bill charging the phraseology so as to provide "that as fast as the buillon shall be coined for redemption of said notes the notes shall not be reissued, but shall be canceled and destroyed in amounts equal to the coin held at any time in the treasury derived from the coinage herein provided for. AN AWFUL TRACEDY.

A Millionaire Murders His Wife and Child,

MAKES A PERBLE ATTEMPT AT SUIGIDE

And Then Delivers Himself Up to the Police-The Bloody Butchery the Direct Result of the Murderer's Ill-Spent Life.

St. Louis, Feb. 14.-Dr. Arthur Dues trow, the millionaire son of a Granita Mountain capitalist, who, since his marriage, has, it seems, been recreant to every vow to his bride and duty to his family, who has spent his time in drinking and carousing with disreputable women, and scarcely less abandoned men, reached the climax of his evil doings vesterday afternoon at 4:19 o'clock when he terminated a quarrel with his young wife by shooting and fatally wounding her, and followed this up by shooting his pretty 2-year-old boy

through the brain.

The red-handed murderer then ran to the police station and delivered himself up saying that he had killed his wife and child. To the incredulous officers, who believed him only drunk, he showed a slight wound in his own head, declaring that he had attempted to finish the tragedy by killing himself. If he had, his aim was not as sure as when he pointed the deadly weapon at his innocent child and injured wife

Physicians hastily summoned found the child dead and the woman unconscious, and an examination showed the latter to have slight chance of recov-

The woman in the case was the notorious Clara Howard, better known as Clara Allen, proprietress of a Four teenth-street assignation house, who, when told of the awful deed to which her wiles had contributed no small share, was visibly affected

The tragedy was witnessed by a domestic, who saw the actual shooting of the infant and heard the shots fired at the wife, and came upon the murderer while yet the pistol was smok ing in his hand.

The Brunswick Succession Question Settled.

Berlin, Feb. 14.-The Hanover Tageblatt says that Emperor William and the Duke of Cumberland have agreed upon terms settling the question of the Brunswick succession. The Duke of Cumberland resigns all his rights to the succession in favor of the eldest son, George Ludwig, who beginning after Easter, will study at Dresden. Later he will serve in the Prussian army and, upon coming of age, he will succeed to the title of

Mrs. Ewing said: "Yeast is quite an mrs. Ewing cald: "least is quite an important item in bread baking. I prefer the compressed year that is bought in little pieces wrapped in tin fotl, to home made, hop or dry yeast, and it is the only kind that can be used in making the conding to the recipe I will give the only kind that can be used in making bread according to the recipe I will give you. If you wish to economize, esveral can club together and buy this yeast by the pound instead of in small cakes, and get it cheaper. To make bread, use one pint of water to a cake of yeast. The latter should be mixed in a cup with a few tesspoonfule of cold water and stirred till thoroughly dissolved. One-taff milk and one-half water can be used instead and one-half water can be used instead of all water, but unless the bread is of all water, but unless the oread is going to be eaten 12 the form of hot rolls, the milk is not necessary. Make the water lukewarm and mix with the dissolved yeast. Great care should be taken that the water is warm enough and at the same time not too hot If you put a thermometer in the water it should register seventy five degrees. Mix in flour and an even tablespoonful of sait and sur. When it is taken out of the howl and put on the board it should be a sticky paste. Sift more flour over it and kneed it with the hands. When the dough can be worked on the and at the same time not too hot When the dough can be worked on the half as many native women, with an board without any flour and without atlanting, it contains enough of flour. This is the only rule that can be given as to the amount of flour necessary to use, as it varies according to the quality of the party. We organized our expedition. Work the dough until it begins to bister, and then put in a bowl, brush to make the ton with railed greens and are over the top with melted grosse and est to rise for three hours in a room heated to rise for three hours in a room heated to about 95 degrees. By making bread with this kind of yeast it is only neous arry to let it rise once." Mrs. Ewing had prepared and set bread three hours before so at this point she showed the class how the bread would look after 11 had set the proper time. It was worked some more, put in long, narrow pansagain brushed over the top with melted grees and allowed to rise for about an greese and allowed to me for about an hour, when it would just fill the pan. It would then be ready to bake. Mrs. would then be ready to bake. Mrs. Ewing then showed the class bread that had been baked in the same pans. The loaves weighed about one and one-half pounds and were light and palatable.

GRAHAM BREAD. Mr. Ewing said that in making gra ham and whole wheat bread the process was exactly the same except that there should be added a little suger or molasses to sweaten. The white flour does not need any suger as it is not need as

the process of refinement. She said that most people supposed that bread made of course flour was more nutrititions than that made from the white flour, but that she thought the latter was both more nutritious and chesper BEEAD PUDDING.

"There are meny ways," said Mrs. Ewing, "to make use of stale bread. I will give you a nice recipe for bread pudding. Use a pan about two or three inches deep. Cover the bottom, which has been buttered, with alices of dry bread. Sweeten to taste one quart of the cover well breaten. milk, mix with three eggs well beaten, and pour over the bread, dusting a little sugar over the top. When baked the bread will rise to the top and a rich oustard will be formed at the bottom, mak-

"Another very common way to use stale bread is by toasting it. Very few people know how to make good dry toast. Put the slices of bread in a pan and set in the oven to dry the surface.

Then put each piece on a toasting fork
and hold over a clear fire and brown on both sides. The slices should be folded between a napkin so they will keep dry.
If you want to make butter toset, butter the chose when they are hot. Dip toest may be made of water or milk. If the latter is need, heat it in a pie-pan with a tittle sait and butter, and dip the alices in it. If desired more milk may be poured over the toast after it is put in a dish, or a same may be made by adding a little flour to the milk. Never make the sayes any thicker than rich cream," BREAD CAKES.

To make bread cakes use bread about a week old. forts at Rescue.

Miners and Laborers Entombed by WILKESBARRE, Pa., Feb. 14 -An extensive cave-in occurred at the Gaylord mine of the Kingston Coal · Co., at

A large number of miners and laborers were at work under a section of the roof which has for some time past been considered very weak. After a shot had been fired, and without any warning whatever, the roof, consisting of rock and coal, fell in with a heavy crash. It is not known as yet whether any of the men were killed outright by the falling debris, but it is known that thirteen of them are hemmed in in one

of the gangways. The air supply is shut off and the chance of living for any length of

time is very small. An army of rescuers are hard at are pitiful.

All Points of Egress Closed. WILESBARRE, Pa., Feb. 13.—A number of mine foremen and their assistants, led by John D. Davis, superintendent of the Gaylord works, who had been in the mine all afternoon came out at 5 o'clock and reported that entrances.

Men of all classes who are familiar with mine working are at the scene of the disaster, and their willing hearts and strong arms are ready to go into the mine whenever the word is given aid in rescuing the entombed timber men, if such is possible.

The mules were taken out of the shaft this evening, as the cave-in was extending close to the foot. Should the shaft be closed at any time all hope of rescuing the men will have to be abandoned for an indefinite time.

Warned Before Entering the Mine. The thirteen timbermen who weut into the mine, and who are now imprisoned there, were warned yester day that there was danger ahead, but they were of the opinion that the danger was not sufficient for them to stay out. They said, however, to the hoisting engineer as they went down the pit: "Should anything occur you confession. She was a very bright, loving girt, the pit: "Should anything occur you confession. The scene about the mine late tonight is heartrending, and from the pressive and affecting ever held here, there eleven widows and plenty of orphans who did not shed tears at some time during the to suffer the loss of their only support. The officers are hard at work to devise some plan or means of rescue, but in order to get the men they will have to penetrate through 400 feet of solid coal and rock. It is believed by the superintendent and others that the imprisoned men are on the "big plane" in the

Bennett vein, which is about 700 feet from the foot of the shaft. All the men were married except Thomas Leishon, who is a single man, and Daniel Morgan, who is a widower.

VICTIMS OF THE STORM.

More than Thirty Persons Thought to Have Perished in Oklahoms and Indian Territory.

KANSAS CITY, Mo., Feb. 14.-Late reorts received here from Oklahoma and the Indian territory make it almost certain that at least thirty lives were lost during the great storm of Sunday. Many isolated homesteads, where the families were poorly prepared for the winter, cannot be heard from for days and possibly weeks, and there is reason to believe that thirty will not represent the total number of the dead. In western and southwestern Kan-

sas there was great suffering, and it is probable that in more than one sod louse dead bodies will some day be

CHICAGO, Feb. 13.—The men who engaged in the strike were not connected with the Illinois Central repair shops The railroad company advertised for 150 men to clean away the snow from the tracks and around the repair shops. To this advertisement 1,000 men responded. Some of them were put to work and the othersobjected, and fearing that a general fight would ensus, officers were sent for. Everything was quiet at most and the snow-shovelers were bord at work.

WORTH A QUARTER.

Four or five well-dressed and apparently well-heeled men stood in a group

on the bows of a Windsor ferry boat yesterday, when a man whose appearance denoted hard times approached them and said:

"Gents, I'm used to going without victuals and sleeping on the ground, and I give you my word I really like it. Howsumever, I am obliged to solicits aid for a different object. Gents, allow me to call your attention to me eyethis left one.

That something had happened to his eye was plain enough. Indeed, there was no eye at all, only a socket of one.
"What's the matter?" asked one.

"It's just here, sir," replied the man. "About ten years ago a cow hooks me eye out. I suffer and suffer, and by and by I buys me a glass one to preserve me looks. It's not for me to say that I looked even handsomer than before, but should any of you gents want a glass eye, I'll be happy to give you all the pointers I can. There's a way of wearing a glass eye to make ye look like a Jim Dandy, and ye have only to call on me to get full particu-

lars."
"But where is your eye?"
"That's what I'm coming to at once. I was over here in Detroit the other day, expecting to meet a man who wanted me to go down the country and boss his farm. He didn't show up, howsumever, and while waiting I felt I goes over to a saloon and says I've got cramps and asks what is

good for 'em. "'Whisky, of course,' says the bloom in' bloke behind the bar.

'But I've none of the needful.'

"Gents, I was suffering that bad that I cried out for some one to hit me with a club and end me agony, and send word to me mother in Boston that I hoped to meet her in a better place, but no one would do it.

"Why didn't you speak to a police man?" queried one of the group.
"I was too distracted with the pain

I felt that I must have whisky. I had no money, but all of a sudden I thought of me glass eye.

"'Here—give me a horn and keep me eye until I can raise ten cents!" I says to the bloke behind the bar. 'But it's only glass,' says he.

"Of course it's only glass Am I to lay me real eye down on your bloomin" bar for the price of three fingers of

"'I'll take it for two fingers, and if you don't claim it in four days I'll use it on me dog, who lost his left eye in a fight last winter!'

"I gives him the eye gents and I gets the whisky and saves me life to be a comfort and a consolation to me mother in her old age. Now I wants to get it back He'll charge me interest, and it will take a quarter to do it." No one made a move to contribute,

and the man suddenly began wiping his good eye and said:

"Gents, if that bloomin' bloke was to keep me glass eye on the shelf among the bottles, I wouldn't feel so bad, but to-day is the fourth day, and by to-morrow his one-eyed fightin' dog will be wearin' me optic, and paradin' around town. Put yourselves in me place, and imagine how you'd feel."

They chipped in a quarter for him and he bowed and scraped and said:

"And I can hear me dear old mother as she weeps for joy! Now I am a man again! Now I can face the world Ah! gents, may you never need a glass eye to begin with. If you have to get one, may you never need to put it up to save your life. If you have to put it up, may it never be to a bloomin' bloke who hasn't got any more feelin' than to want it for his bloomin' fightin dawg to wear in the buck yard"

He went away and sat down, and while everybody said he lied, everybody also agreed that it was a story worth a quarter.—Detroit Free Press

MONOPOLISTIC HALF BREEDS.

The Real Owners of the Lands of the Five Nations. The lands of the five nations are estensibly held in common, but as matter of fact the disproportion in holdings is monopolistic to a remarkable degree. The real Indian derives little benefit from his patrimonial acres. The pale-skinned Jacob has stolen Esau's birthright. There are farms, rich and highly cultivated, of from five thousand to twenty five thousand acres in a body; pastures of long succulent grass whose fences a horseman cannot encompass from sun to sun; mines opulent with their stores of coal; but they are controlled by professional red men, or the mixed breeds whose dominant blood is white. It is said that a score of Chickasaw citizens, in whom combined there is hardly enough aboriginal blood to make a full-blood Indian, control nearly ninety per cent. of the arable lands of that nation. A Cherokee squaw man is said to hold more land than is held by all the fullbloods in the tribe. Under the tribal law there is no limit to the extent of a citizen's holding. He can control and enjoy the usufruct of as much land as he can fence without encroaching upon the improvements of a fellow-citizen. As a consequence the national domain has passed into the possession of the more intelligent and enterprising elements of the tribe, the inter-married citizens and mixed breeds, who conenough to make the estates of the land barons of the old world seem mere truck patches in comparison, utilize white non-citizen labor in the cultivation and improvement of their vast farms. The Indian agricultural toiler is an anomaly, and negro labor is un-common. As a rule, especially in the

opening up of new farms, the tenant

not only furnishes the labor, but the

improvements also, under an annual

GORGE OF THE LUALABA Interesting Stretch of River Unlike Anything Seen Eisewhere in Africa.

The western head sources of the Congo river were visited for the first time by white men last year, and the story they have told of the great gorge they saw and the stream that plunges through it, almost as swift as an arrow for many a mile, was entirely out of the common in Congo explorations. The explorers were Lieut Francqui and Dr. Cornet, in the service of the Congo Free state. They traced the Lualaba river from its fountain head and made a discovery that, as far as is known, is duplicated nowhere in Af-

Imagine a narrow stream flowing placidly between its rather low banks. It has gradually been gathering vol-ume from little contributions that a dozen or fifteen tributaries have supplied. The channel is quite deep, though not wide. Nearer and nearer the water approaches a mountain pass to the north, which at a distance ap-pears to have no passage through. Suddenly the water rushes into a rift in these hills, and for many a mile it tumbles along, zigzagging between two gigantic, perpendicular walls of solid rock. Sometimes it falls head-long as a cataract, and then again it is merely a rapid, with a speed five times as great as that with which it enters

This great gorge has a tortuous course, bending first to the east and then to the west. It is nowhere over 120 to 150 feet wide, and it rises 1,000 to 1,200 above the level of the stream. The walls rise nearly perpendicular in every part, and are formed of the bare crystalline rock. Here and there in some crevice a little soil has formed, just enough for a tuft of grass or a puny tree to take root.

At the level of the stream one can see only a little ribbon of the sky above, for at that great height the top of the walls seem almost to touch one another, and the trees at the top overenother, and the trees at the top over-hang the edge and shut out nearly every glimpse of daylight. At the bot-tom of the narrow gorge the little river glides swiftly, sometimes with almost an unbroken surface, and then again lashed into foam by thousands of rocks, whose tops rise above the sur-face; and then again the water pours tumultuously over the edge of the declivity, and then plunges on in a series

In a distance of forty-three miles the river drops 1,500 feet, and then it emerges upon the plain, and, forget-ting its mad career, it flows placidly along to join the Lualaba river, and at the junction of the two rivers the true Congo begins. No other tributary of the Congo, or even the great river itself, where it tumbles along in rapids for 235 miles, between Leopoldville and Matadi, presents a spectacle so savage and so violent.—N. Y. Sun.

WEDNESDAY EVE. FEB. 14. 1894

Oun Congressman Springer has at lest come to the front in a notice upon his constituents that he is in their hands and perfectly willing to accept a nomination for congress. Shumway and Hay will probably note this latest develop-

Way don't the administration which started out to play to the people make public the answer of President Dole to the demands of Minister Willie to give state department conspired against the provisional government? Dole, it will be is said to have set up a mighty interceting bill of particulars. The president ought, by all means, to give that letter to the public. It would be mighty interesting reading, as it is probably a very "extraordinary" document.

It Is Still Deception.

Some days ago the Chicago Herald stated editorially that the same speeches made in congress now by those apposed to the passage of the Wilson bill, in which it is assumed that the bill, in case it becomes a law, will be injurious to the prosperity of the country, are simply a reiteration of the speeches made in congress by Clay and Webster at the itme of the passage of the Walker revenue tanif bill in 1846; and also that the predictions of Clay and Webster were not verified, but on the contrary great prosperity followed the passage of the Walker tariff bill. Upon this statement the Herald assumes that the Wilson bill will be followed by prosperity, The statement that prosperity fol-

lowed the Walker tariff is antrue, for as a revenue messure it was a failure, for the public debt meressed every hour it was in operation, wages decreased, and the price of what the wage-earner had to buy increased. That was not prosperity. Let the wage-sarner stop and think, Let him consider the condition of the wageearner under the tariff of 1846, and see what that condition was which the Herald calls prosperity.

During that period a common laborer got 50 cents a day of ten hours. A skilled carpenter received \$1.50 a day, and blacksmiths, bricklayers, painters and plasterers got about the same, while a farm hand got \$9 a month and board. Those wage earners paid \$1.621/2 for an ax that could be bought in 1892 for 80 or 90 cents; blankets cost them \$6 that could be bought in 1892 for \$3.25; blue shirting cost them 20 cents a yard, that could be bought in 1892 for 10 cents; calico cost them 15 cents that could be bought in 1892 for 6 cents; boots cost \$5.50 that could be bought for \$250 in 1892, flannel cost 75 cents a yard that sould be bought in 1892 for 35 cents; ticking cost 45 cents a yard that could be bought in 1892 for 16 cents; a common straw hat cost 50 cents that could be bought for 20 cents in 1892; a chip hat cout 20 cents that could be bought for 5 cents in 1892; nails cost 9 cents a pound that in 1892 sold for less than 3 cents a pound, and so on through the list. No wage earners then had a carpet considered necessities.

Take the wages paid in these days and the prices of the articles that wage earners had to buy, when they bought at all. and the wage-earner of to-day can figure out what kind of times those were that the Herald calls prosperous times that followed the passage of the Walker tariff bill. The common laborer then could not ekra enough in three days to buy an ax; he could not earn enough in a day to of small and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the one day to buy four papers of pins and damage they will do is ten-fold to the one day to buy four papers of pins and yet the Herald attempts to cram into the craw of the wage warners that those were prosperous times.

The Herald told the workingman, who had lost his job because the success of the Democratic party had paralyzed husiness, that it was all due to the silver law and that as soon as that was repealed business would boom again but it didn't and now it undertakes to hold there in the Demogratio party by telling them that the Wilson bill will boom business. There is not a manufacturer in the

ountry nor a skilled workmen in a mannfactory-and they know more about it than a whole regiment of apologists for the Wilson bill-but contend that the Wilson bill will injure business and reduce wages. If it reduces wages, and it will just as sure sa little pears grow into big ones, then it will force thousands upon thousands of workingmen to semain in idieness and bundreds of mills to remain closed; and if any workingman is foolish enough to believe that under that hill labor will be benefited, all be has to do is to fool his time away a little longer voting the Democratic ticket, against his own interests, until his eyes are open if each a thing is possible.

There has been experience enough already to teach any man, whose prepadioss are not too thick, that a vote for the Democratic party in the past has been a vote to strike down prosperity-a vote to take bread out of the mouths of his wife and children and the clothes off

their backs to put a set of men in office who are not competent to conduct the Mans of this government successfully.

"Blood on the Moon." There will be "blood; on the moon" in every effort time, and the best point for observation will be Decatur. Lest summer the Decatur Review announced its intention to bolt the Democratic party in case the Democrate put a tariff on sugar. The Democrate in the senate are about to restore the duty on sugar and the people of Decatur-ought to reise a fund to employ a band and give the Review a serenade when it begins to kick the moon out of the sky.

WASHINGTON LETTER.

[From Our Regular Correspondent.] WASHINGTON, Feb. 14, 1894.

The Cleveland tanff bill is to be re particulars wherein he, Willis, and the ported to the senate this week. It is not to be torn all to pieces by the finance committee, as many had expected. It is remembered, replied very promptly, and only to be sufficiently smended before being reported to gain the support of those Democratic senators who had annonneed their intention to vote against it unless their demands were complied with. Nothing has yet been officially given out concerning these amendments, but it is regarded as certain that they will include a duty on augar, both raw and refined, and a duty on coal.

Colonel E. T. Lee, of Monticello, Ill. secretary of the Shiloh Battle Field Associetion, 18 10 Washington for the purpose of presenting the congressional committees the memorial adopted by the association, asking congress to purchase the battlefield of Shiloh and turn it into s national memorial park. The association at a recent meeting held at Indiana polis, designated Senators Harris, of Tennessee; Sherman, of Ohio and Viles, of Wisconson, a committee to take charge of the memorial in the Cenate and the following representatives to perform a like duty in the House: Col. D. B. Henderson, of Iowa; Gen. Joseph Wheeler, of Alabams and Gen. John C. Black, of Illinois.

Representative Geary-"OhmeseGeary, be me often onlied-of Californie, is Democrat, but not a suckoo, as will be seen by the following language of his "I have as much respect for the president as anyone else, but I do not see why congress should first learn the wishes of the president or consult the wishes of the executive departments before legislating. Congress is here to pass laws without consulting anybody, and I, for one, am growing tired of the constant interference of the executive departments in the work of congress Let congress make its own laws, and if the president does not like them, let him exercise his constitutional prerogative and veto them." That's the most sansi-

ble Democratic speech of the session. The charge was made several days ago that Secretary Greeham has had a long letter from President Dole to Minister Willis in his possession more than s week, and that it was withheld from the house for fear that the terrible arraignment of Willis for his double dealing since arriving in Honolain, which it contains, would have defeated the enckoo resolution which the house was fairly driven to sciopt last week, and the charge has not been denied. It certainly looks se though the administration were determined to sink itself to the bottom of the pit of public infamy in dealing with Hawaii. Mr. Dole's letter is said to be something like ten thousand words long and to go into minute detail the sots of Minister Willis. The administration people are claiming that Senstor Morgan has been placated and that he will join Senators Butler and Gray in ne will join Senators Buller and Gray in the majority report of the Hawaiian in-yestigation, which will jump on ex-Min-istes Stevens and let paramount Blount and the administration down easy.

LOOKING FOR A WIFE

Berry at Maros.

About six weeks ago an elderly gen tleman came to this city and put up at the Control hotel. He registered as J P. Berry, Mewton, Kan., and gave out the impression that he was a detective and was here looking for a man who was wanted for some grave offence. He was apparently about 70 years of age, was well dressed and pefore he had been here

spheredly noots to years of age, was wait dressed and peters he had been here iong he began to pay attentions to some of the widows, representing that he was very weattay, etc. He did not hesitate to say that he would marry it he found a lady who suited him in every partecular. He says that at one lown where there were 26 widows he proposed to 32 of them, and might have had his peek of the bunch, but he concluded to welf awhile. He reported here one movening that he was going to Decatur to obtain a statirings license, having entered into a spatiance with one of Marsa's widows, included were made public. A few days before he had written a letter to rethe one, presumably to a relative, enclosing it in a Central total envelope, and as the letter was not called for it was returned. it is a Central notes enverope, and mean letter was not called for it was returned to the hotal and opened. Then a sette-tion was created, for the letter contained the information that Berry was already serried and was just then trying to go matried and was just then trying to get a diverse from his wife. He had stated to parties bere that his wife was dead. Learning that he was about to obtain a license the parties who hald the letter concluded that it was about time to make it warm for the old gentleman, light to come to his knowledge that the letter he had written had been returned to the hutes and ground as he could not to the hotel and opened so he could not fuce the music, and at once came to the conclumon that one wife at a time was about enough for him, so he heartly took

his departure for parts unknown.

Worshipers to Offer Adoration to Their Patron Saint. To-day the worshipers of St. Valentine

-and they are legion among the young -are off-ring adorations to their patron saint. The dealers have prepared to suppry the empleme of devotion, embracing tue usual range, from the hideous caricetures to the most exquisite missives or love. Perhaps a few of these tokens are given and received in the spirit which should mark the occasion, but it is safe to say the inspiration of the greater muchor is hardly in keeping with the love and charity of the amiable bishop of Rome, who died more than 1,600 years ago, and whose kindness the day is supcord to commemorate. The store windows have been filled

with all sorts of missives paculiar to this day, from the ludierous to the senteness tal. There are red-nosed, black-eyed, rum-soaked individuals; lean, lank, fat, juicy old maids; men with two harm on the top of build heads; dudes, base ballists. blear eyed, sleep-looking polusemen, phrenological specemens, and in fact, every class of humanuty has a reprethe rogues' gullery of St. Valentine. Of course there are some lace-edged, daintily decorated and painted specimens to be seen. Most prominent, however, is that well known scene where Cupid, the rascal, is orgally thrusting his dects through a pair of simple, trusting, bleeding bearts.

He Was a Gari. The Brazit Times tells of a woman is

Age cannot wither or custom stale Gue Williams' capacity to amuse; and now, Gue has sprung a new play on the ever unemproting public, entitled "April Fool," which he will present at the Grand on Friday night next. The play, a highly successful musical comedy, is one that affords an amplitude of fuence situations of which at is safe to say the injustable Gue makes the most, causing uproars of provoking laughter from his andience. The farce is an excellent one, full of good specialties.

WE CAN'T DO IT AGAIN.

WE presume that everybody understands that we cannot duplicate the offer we are now making on the James A. Banister fine shoes for men. The only reason why we are able to make the prices which we are now making on these goods is that we purchased them at 521 cents on the dollar of the wholesale cost price after the failure of Perriss & Co. We therefore can offer them at the price we are now selling them at, although we do not expect and cannot hope that we Spencer & Lehman company's. feb6-d4m will be able to replace these goods next year and sell them at anything like this money. The Next Grand Army Meeting. The annual encampment of the Depart ment of Illinois, Grand Army of the Bepublic, will be held at Rockford, May 15, 16 and 17. Bloomington people want the convention for 1895 in their town and have taken steps siready to secure it. They are beginning early so that they have the best of Springfield, Peorle, et al. in this race. At a mosting neld recently a number of committees were appointed and a resolution was adopted inviting the eneampment to that city in 1895. Committees are now at work collecting pledges from business men and are meeting with good success. The meeting place for 1895 will be decided at the Rockford meeting in May. There is no question that Bloomington people could succeesfully handle the encampment. That city s wall fixed as to hotels, railroad facili-

The Monster Band Makes a Hit at the Union Depot. .

The departure of F. D. Caldwell, the popular coal dealer, for Hot Springs, Ark , last evening, on a recreation trip, was made the occasion of lively music and fun, which was as much of a surprise to Frank as it was to the people on the platform waiting for trains. It was a put-up job on Frank, and be was wholly in the dark as to what was going to happen,until he started from the waiting room for the train ecompanied by the archbouspirators-his friends-the Monitor band marched out from the Pacific Express office and struck up a medley of popular airs, starting in with "Ta-ra-raboom-de-ays." L. L. Burrows, D. A. Maffit, Aaron Kaniman, O. H. Tyler, Wayne Wilson, B. Z. Taylor, James Phillips, J. O. Lake, C. F. Armstrong, James Hatfield, R. J. Stratton, L. T. Walton, Billy Downing, M. F. Kanan, Bert J. Hardy and other friends gathered around Frank and had fun with him while the band played vigorously as

it had never done before. Mr. Caldwell's face was a study. He didn't know what to say or do, and when floral tributes were presented by Mr. Burrows, and others, he capituisted, and acknowledged that the demonstration was a horse on him. He was grateful for the presence of so many of his personal friends to bid him good-bye, but the mu is by the colored band was a feature of the send-off he didn't expect. All he could do was to pour fourthe volley of friendly threats, and make a break for the train. As he stood upon the platform lifting his hat and gestulating, the band struck up "Good-bye, My Lover, Good-bye," with variations, and Frank made a desh through the door of the coarb, while the crowd on the platform yelled steelf hearse There will be a day of reckoning, and Frank will play even. The "gang" had better keep its eye on Caldwell.

The Stamese Opers, "Wang." Some idea of the harem of the King of Stam is given by the pretty girls in the Siamese opera, "Wang," which comes to Decatur Thursday night. The real harem is a city by itself centerning 10,-000 people. It is a paradise for believers in woman's rights, as the lawyers, shopkeepers, police, and even the executioners are all women. The beautiful band of Amezons seen in "Wang" really exist in the harem city where the gennine Amezons have their barracks. The conoublines never leave this strange piace until they are too old to attract attention, but the slaves who run the shope have the right of going out, and from them the secrets of harem life leak out. Their information sifted through many others, forms the only basis upon which this feature of "Wang" has been constructed. This year's production of "Wang," headed by Edwin Stavens, is gaining golden opinions everywhere it is seen and its appearance is awaited with unusual interest by our theater-goers. The demand for seats is already very large for its first presentation to this
